

zipForm® Plus Team Edition

Specifically Designed For Real Estate Teams.

zipForm® Plus Team Edition offers the flexibility and versatility that real estate teams offer their clients. Team members can collectively work together on their transactions efficiently online instead of exchanging files through email or in person. Eliminate the repetitive paperwork with zipForm® Plus Team Edition.

As a real estate team builds their business they will need tools to manage the many transactions and bring new members on board. Collaborate and assist other team members by creating transactions for them as well as edit transactions on their behalf. In addition, sharing created templates with the entire team is simple and streamlines the workflow.

Finding the transaction you need is as easy as knowing who created it; with the powerful search and filter tool quickly sort or search based on transaction owner. As new real estate professionals join the team, easily manage their access within the zipForm® Plus Team Edition user interface.
