

# more than just an app

Your life shouldn't stop for a real estate transaction and now it doesn't have to with dotloop's Mobile Platform.

## stay agile

Today's real estate professionals and their clients manage most of their lives while on the go and want to use technology that matches that lifestyle.

Get deals done from wherever business calls with dotloop's iOS app and mobile-optimized platform.

## mobile scanner

dotloop transforms your iPhone and iPad into a pocket sized document scanner. Simply take a photo of any document, and with a few steps you can add it to any transactions.

## stay focused

Focus on getting deals done, and not on cumbersome and complicated technology. With dotloop's simple design, everyone involved in a deal will be raving about its simplicity. No noise, no distractions - just documents, people and tasks.

## in-person signing

As a real estate professional you are always looking to simplify your clients' life. Well... this is how. Signing is a major part of the transaction, why not bring it to their fingertips with dotloop's in-person signing feature?
